JET LIFTING SYSTEMS

HERITAGE

Hoists were the first products JET launched over 60 years ago. Since then JET has sustained a commanding presence in the industry as one of the premiere hoist manufacturers in the U.S. market.

PHILOSOPHY

Since 1958, our philosophy has been, and always will be, to satisfy the needs and demands of our customers.

INNOVATION

JET's extensive research and development results in industry-leading, innovative products that focus on safety and durability.

AL-100 SERIES CHAIN HOISTS

SMALLER AND LIGHTER HOIST

Heavy material just got easier. The AL100 Series is 20% lighter, 20% thinner, and offers the smallest head room compared to the closest competitor on the market.

OVERLOAD PROTECTION MODELS

DUAL PAWL WESTON BRAKE

FUSED BRAKE DESIGN

ALLOY STEEL HOOKS

SAME JET PERFORMANCE

Manual Chain Hoists have been around for decades, with one main advantage: they help lift heavy materials. With the AL100 Series, JET changed the game.

ALL STEEL CONSTRUCTION

HEAT-TREATED LOAD PLATES

GRADE 100 PLATED LOAD CHAIN

CAST-STEEL SAFETY LATCHES

AL-100 SERIES HAND CHAIN HOISTS

AL-100 SERIES HAND CHAIN HOISTS

SAFETY

- Weston-style Double Pawl System splits the load to opposite sides of the ratchet gear for added safety
- Patented Fused Brake Design provides durability and increases safety backed by a lifetime replacement warranty
- Cast steel safety latches will not bend or deform
- Extra-large hand chain opening for side chain pulling

DURABILITY

- Grade 100 load chain is heat treated for additional strength and zinc plated for corrosion resistance
- Sealed housing provides extra protection against extreme elements

STANDARDS

- Complies with ANSI/ASME B30.16 and HAST-2 Standards

SAFETY COMES STANDARD

JET® hand chain hoists are comprised of the safest and most durable material on the market. Across our full line of hoists, we continue to raise the bar on safety, dependability, and durability.

OVERLOAD PROTECTION MODELS

DUAL PAWL WESTON BRAKE

FUSED BRAKE DESIGN

ALLOY STEEL HOOKS

DURABILITY GUARANTEED

All JET® hand chain hoists are engineered to meet strict tolerances and are constructed with quality materials to ensure they last. JET stands behind these products with industry-leading warranties and support.

ALL STEEL CONSTRUCTION

HEAT-TREATED LOAD PLATES

GRADE 100 PLATED LOAD CHAIN

CAST-STEEL SAFETY LATCHES

L-100 SERIES HAND CHAIN HOISTS

L-100 SERIES HAND CHAIN HOISTS

SAFETY

- Slip clutch style overload protection prevents lifting of damaging loads beyond the rated capacity of the hoist. Overload protection trigger can be reset on site
- Weston-style Double Pawl System splits the load to opposite sides of the ratchet gear for added safety
- Industrial rated alloy steel hooks rotate 360° for easy rigging and slowly stretch to indicate an overload situation
- This product complies with ANSI/ASME B30.16 and HST-2 Standards

DURABILITY

- Grade 100, Zinc-plated load chain provides a smaller, more compact link with a greater working load limit and maximum corrosion resistance
- JET's revolutionary single piece fused brake reduces maintenance and carries a lifetime warranty
- Cast-steel safety latches provide added durability over stamped steel latches and will not bend out of compliance
- Intended for the harshest environments, the heat-treated load plates and case hardened corrosive resistant internal parts extend the life of the hoist and gives industry leading corrosion resistance
- Double sealed ball bearings support the load sheave increasing efficiency by reducing rolling resistance under load, promoting smooth operation
- Impact resistant all steel construction for added durability and protection

VERSATILITY

- Lightweight and smaller body design are ideal for confined areas and low headroom applications
- Load tested to 125% of capacity with certificate

S90 SERIES HAND CHAIN HOISTS

CONTRACTOR- GRADE HOISTS

JET® S90 Series Hand Chain Hoists were designed with all steel construction and ensure reliability and durability to perform in light-duty industrial applications. Easily maintained and serviced, the JET® S90 is available in capacities from 1/2 ton to 10 ton and standard lifts of 10, 15, 20, and 30 feet (custom lifts available).

JLH SERIES COMPACT LEVER HOISTS

JLH SERIES COMPACT LEVER HOISTS

SAFETY

- Weston® brake design with opposing double pawls, splits the load to opposite sides of the ratchet gear for greater load security
- Industrial-rated alloy steel hooks rotate 360° and slowly stretch to indicate overloading

DURABILITY

- Grade 100 load chain is a smaller, more compact link with a greater working load limit and is Zinc plated for maximum corrosion protection
- The 4 pocket chain sprocket provides enhanced chain and lift wheel engagement for reduced vibration and smooth lifting
- Secured with Allen screws and lock nuts, the cast-steel safety latches are more durable than stamped steel latches and will not bend out of compliance with lifting regulations
- Durable, impact resistant, aluminum alloy housings
- The heat-treated load plates and case hardened corrosive resistant internal parts extend the life of the hoist
- Rugged vinyl pouch with belt loops and carrying strap included

STANDARDS

- This product complies with ANSI / ASME B30.21 and HST-3 Standards
- Load tested to 125% of capacity with certificate

JLP-A SERIES MINI-PULLERS

JLP-A SERIES MINI-PULLERS

SAFETY

- Weston® brake design with opposing double pawls, splits the load to opposite sides of the ratchet gear for greater load security
- Industrial rated alloy steel hooks rotate 360° for easy rigging and slowly stretch to indicate an overload situation

DURABILITY

- Intended for the harshest environments, the heat-treated load plates and case hardened corrosive resistant internal parts extend the life of the hoists and gives industry leading corrosion resistance
- The lightweight design with shorter handle and smaller body are ideal for confined areas and low headroom applications
- Grade 80 load chain is black oxide coated for corrosion resistance
- Impact resistant all steel construction for added durability and protection

STANDARDS

- This product complies with ANSI / ASME B30.21 and HST-3 Standards
- Load tested to 125% of capacity with certificate

JLH SERIES LEVER HOISTS

HEAVY-DUTY INDUSTRIAL SOLUTION

JET® lifting systems are comprised of some of the safest and most durable lever hoists for lifting, pulling and holding applications. If you're looking for safety, dependability, and durability, choose JET Lifting Systems.

OVERLOAD PROTECTION

IMPROVED FREE CHAINING

HANDLE DESIGN

IMPROVED GRIP DESIGN

TACKLE SEVERE ENVIRONMENTS

All JET® hoists are engineered to meet strict tolerances and are constructed with quality materials to ensure they last. JET stands behind these products with industry-leading warranties and support.

FUSED BRAKE DESIGN

HEAT-TREATED LOAD PLATES

DOUBLE PAWLS

CAST-STEEL SAFETY LATCHES

ALLOY STEEL HOOKS

JLH SERIES LEVER HOISTS

JLH SERIES LEVER HOISTS

SAFETY

- JET's revolutionary single piece fused brake reduces maintenance and carries a lifetime warranty
- Slip clutch style overload protection prevents lifting of damaging loads beyond the rated capacity of the hoist. Overload protection trigger can be reset on site
- JET's improved easy free chain design is a no-load, two-step free chaining system that permits quicker hoist positioning and take up of slack chain
- Weston-style Double Pawl System splits the load to opposite sides of the ratchet gear for added safety
- This product complies with ANSI / ASME B30.21 and HST-3 Standards

DURABILITY

- Grade 100, Zinc-plated load chain provides a smaller, more compact link with a greater working load limit and maximum corrosion resistance
- Cast-steel safety latches provide added durability over stamped steel latches and will not bend out of compliance
- Intended for the harshest environments, the heat-treated load plates and case hardened corrosive resistant internal parts extend the life of the hoists and gives industry leading corrosion resistance
- Needle bearings support the load sheave increasing efficiency by reducing rolling resistance under load, promoting smooth operation

VERSATILITY

- Redesigned ergonomic grip is secured to the lever arm providing greater operator control and increased comfort
- Advanced offset handle design rotates 360° and allows for extra clearance between the operator's hand and the load chain
- Load tested to 125% of capacity with certificate

JLA COMPACT LEVER HOISTS

RAISE THE BAR ON LIGHTWEIGHT HOISTS

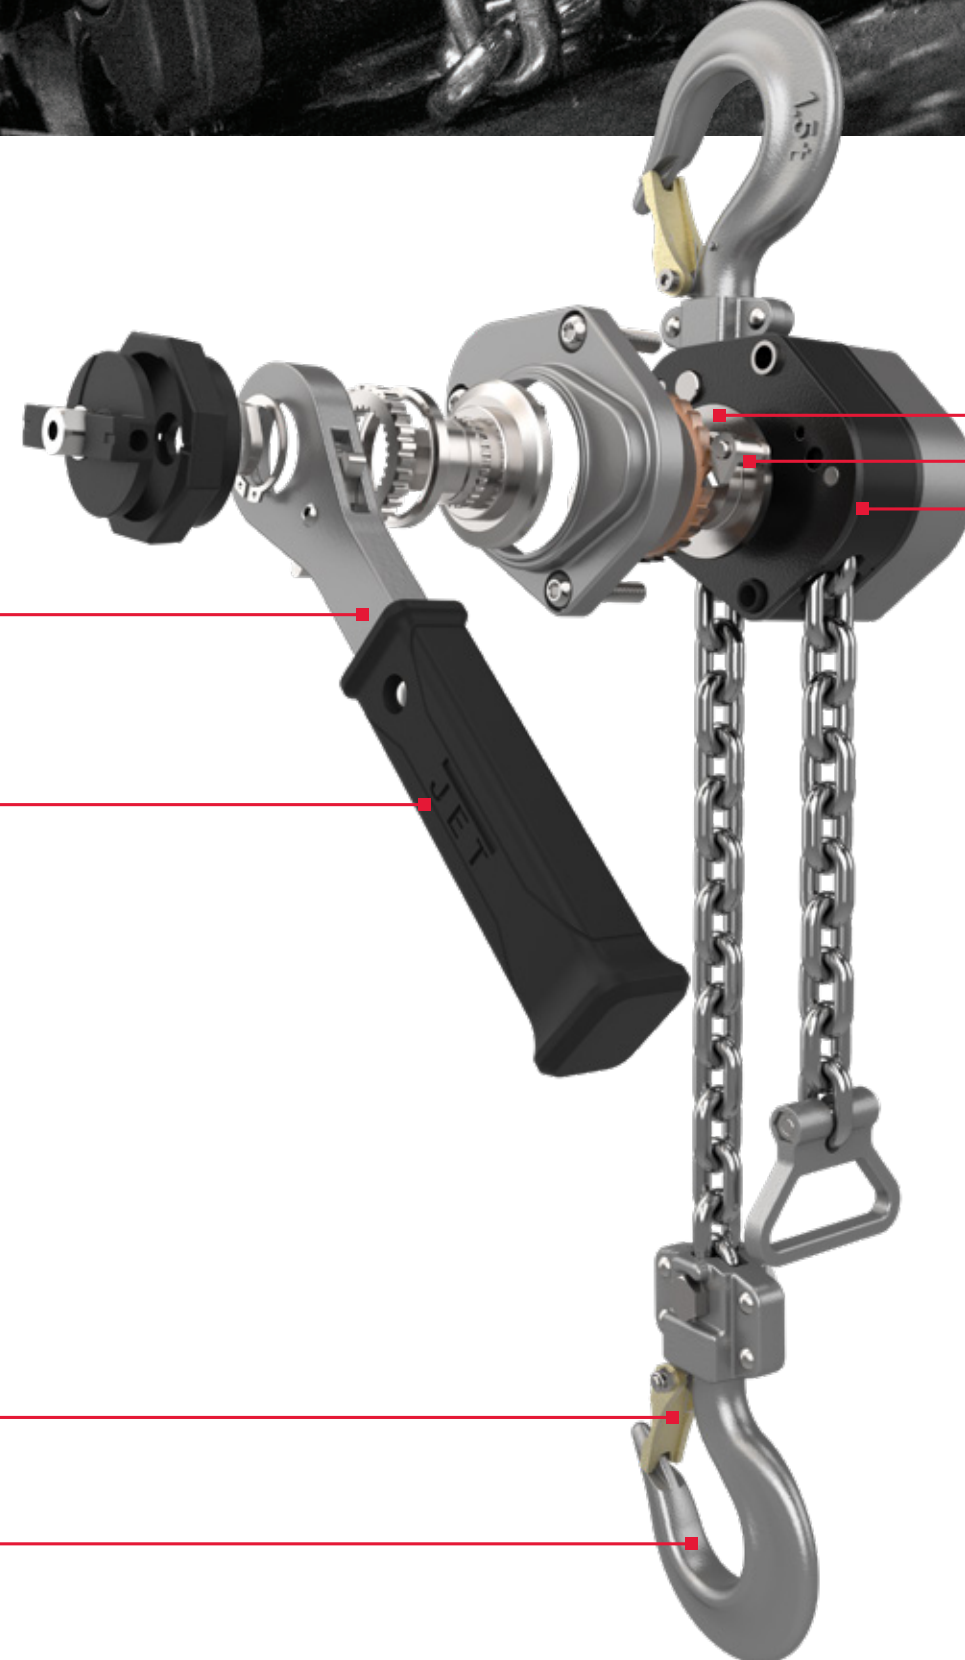

Raise the bar on lightweight durability with our all-new JLA Compact Lever Hoist! Available in 0.75-ton, 1.5-ton, 3-ton models, this hoist delivers industry-leading size, safety, and durability.

HANDLE DESIGN

IMPROVED GRIP DESIGN

CAST-STEEL SAFETY LATCHES

ALLOY STEEL HOOKS

EXPAND YOUR CAPABILITIES

Perfect for your normal, everyday applications, but the JLA series also expands your capabilities with its compact body small enough to fit in your lunchbox, allowing you to get into tight areas where larger body hoists could not.

FUSED BRAKE DESIGN

DOUBLE PAWLS

HEAT-TREATED LOAD PLATES

JLA COMPACT LEVER HOISTS

JLA COMPACT LEVER HOISTS

SAFETY

- Weston-style Double Pawl System splits the load to opposite sides of the ratchet gear for added safety
- Redesigned ergonomic grip provides greater control and increased comfort
- Industrial-rated alloy steel hooks rotate 360° and slowly stretch to indicate overloading
- This product complies with ANSI/ASME B30.21 and HAST-3 Standards

DURABILITY

- World class durability with a 100-grade, Zinc-plated chain
- Cast-steel safety latches provide added durability over stamped steel latches and will not bend out of compliance
- JET's single piece fused brake reduces maintenance and carries a lifetime warranty
- Solid steel, heat-treated load plates for industry leading corrosion resistance

VERSATILITY

- Range in capacity from 3/4 ton to 3 ton
- New free chaining switch for ease-of-use and added efficiency
- Advanced offset handle rotates 360° for extra clearance between the operator's hand and the load chain
- Most compact and light weight lever hoist on the market

ALLOY STEEL HOOKS

JLP-A SERIES LEVER HOISTS

JLP-A SERIES LEVER HOISTS

SAFETY

- Innovative brake wear indicator provides a visual indication when the friction disks are worn and need replacing
- JET's improved easy free chain design is a no-load, two-step free chaining system that permits quicker hoist positioning and take up of slack chain
- Weston-style Double Pawl System splits the load to opposite sides of the ratchet gear for added safety
- This product complies with ANSI/ASME B30.21 and HST-3 Standards

DURABILITY

- Cast-steel safety latches provide added durability over stamped steel latches and will not bend out of compliance
- Needle bearings support the load sheave increasing efficiency by reducing rolling resistance under load, promoting smooth operation
- Grade 80 load chain is black oxide coated for corrosion resistance
- Impact resistant all steel construction for added durability and protection

VERSATILITY

- Ergonomic grip is secured to the lever arm providing greater operator control and increased comfort
- Handle design rotates 360° allowing for versatile rigging applications in confined environments
- Alloy steel hooks rotate 360° for easy rigging applications, and slowly stretch to indicate an overload situation
- Load tested to 125% of capacity with certificate

PT SERIES

Our heavy-duty, long-lasting manual trolleys provide smooth movement across a variety of beams in any environment. The added bulk and durability also provide our widest offering of capacities, up to 10 tons.

DURABILITY

- Easily adjustable to wide-flange H-beams, standard I-beams or curved track with the included spacer washers
- Hardened steel wheels and double sealed lubricated ball bearings provide smooth movement
- Welded all-steel frame and powder coat finish provide maximum durability and protection
- Built-in bumper guards increase user safety and extend the life of the trolley

STANDARDS

- This product complies with ANSI / ASME B30.11 and B30.17 Standards
- Load tested to 125% of capacity with certificate

HDT SERIES

This compact line of manual trolleys feature smaller wheels perfect for application with limited head room.

DURABILITY

- Built-in bumper guards on the side plates increase safety and extend trolley life
- Designed for low-maintenance, trouble-free use on wide flange H-beams, standard I-beams, or curved track
- Hardened steel wheels and double-sealed lubricated ball bearings provide smooth movement
- Light weight for maximum versatility

STANDARDS

- This product complies with ANSI / ASME B30.11 and B30.17 Standards
- Load tested to 125% of capacity with certificate

JBC SERIES

Designed to distribute the load away from the beam flange, the JBC series features a more robust construction for increased durability and longer life in demanding industrial environments.

FEATURES

- Welded, fully enclosed pockets provide greater stability and durability where the beam clamp attaches to the beam/structure
- Larger, thicker diameter pins for increased durability and life

DURABILITY

- Welded all-steel frame and powder coat finish provide maximum durability and protection
- Clamp jaw is designed to distribute the load away from the beam flange edge increasing safety
- Used for quick mounting of a hoist to a broad range of beams

STANDARDS

- This product complies with ANSI / ASME B30.11 and B30.17 Standards
- Load tested to 125% of capacity with certificate

HD SERIES

Available in up to 5-ton capacities, the HD Series has a large-capacity beam flange width to handle wider beams at a lighter weight than most beam clamps.

FEATURES

- Wider beam capacity able tackle beams up to 12 inches wide
- Lighter weight than our JBC Series
- Clamp jaw design distributes load away from the beam flange edge for added safety

DURABILITY

- Welded all-steel frame and powder coat finish provide maximum durability and protection
- Twin reinforcing clamp jaw pins for increased clamping stability and durability

STANDARDS

- This product complies with ANSI / ASME B30.11 and B30.17 Standards
- Load tested to 125% of capacity with certificate

TRADEMASTER SERIES BRUSHLESS VARIABLE SPEED ELECTRIC HOISTS

SAFETY COMES STANDARD

JET Trademaster® Series Electric Hoists combines safety, portability, and durability to operate in all your industrial, construction, and transportation applications. With its market leading wireless controller and 2 in 1 mechanical brake and overload slip clutch, safety is most important. The Trademaster® Series comes in 1/8-Ton to 2-Ton capacities and standard lifts of 10 and 20ft (custom lifts up to 100ft are available).

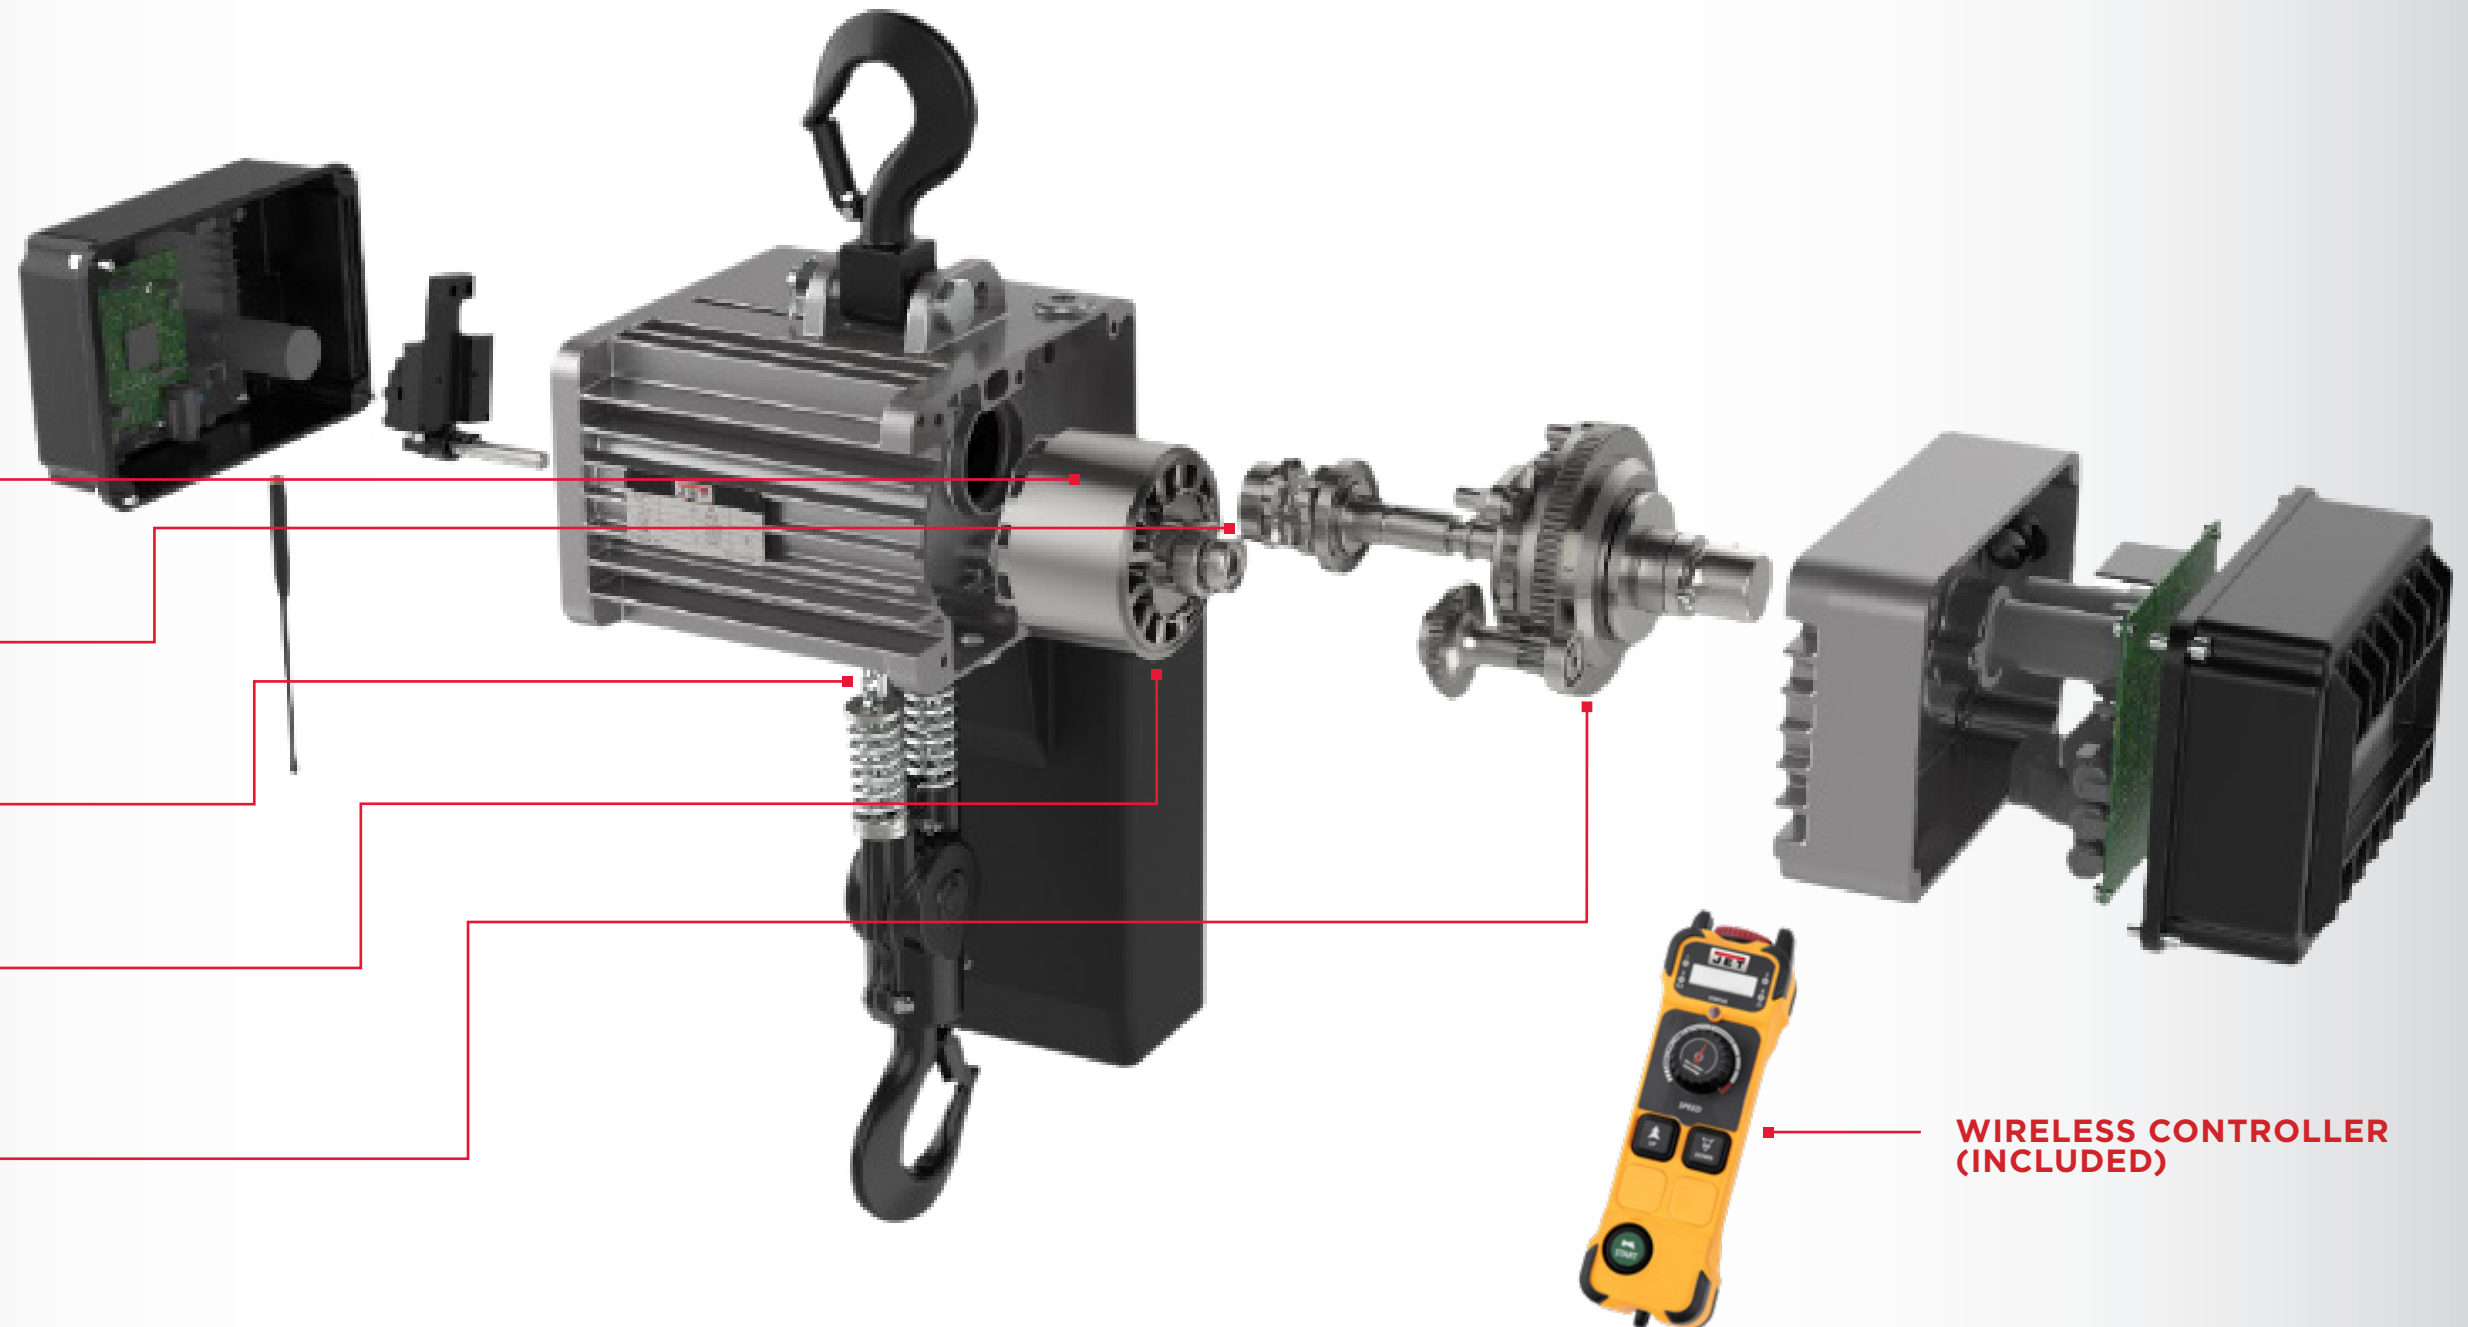

DC BRUSHLESS MOTOR

5 POCKET LOAD SHEAVE

GEAR LIMIT SWITCH

THERMAL OVERLOAD PROTECTION

OVERLOAD PROTECTION

WIRELESS CONTROLLER (INCLUDED)

TRADEMASTER SERIES BRUSHLESS VARIABLE SPEED ELECTRIC HOISTS

SAFETY

- Overload protection using slip clutch system to protect hoist from loads exceeding rated capacities
- Electronic controls are protected by 10 failure codes that are shown on wireless pendant for troubleshooting

DURABILITY

- DC Brushless motor designed for a longer lifespan than normal electric hoist motors, drastically reducing maintenance costs
- Lightweight, compact housing gets you into those tight areas while allowing you transport it from job to job in its molded carrying case

VERSATILITY

- Single phase 120V plug enables use in all areas and the Permanent Magnet Brushless Motor has the lowest required starting current available at just 10 amp
- Comes standard with Wireless Controller that can infinitely adjust speed from creep to 5.3ft/min with speed dial and a max of 21ft/min in high speed
- TAA Approved

TS SERIES ELECTRIC HOISTS

TS SERIES TWO SPEED ELECTRIC HOISTS

SAFETY

- Two-in-one mechanical brake and overload protection assures you of safety first on the jobsite.
- DC Motor Brake actuates instantly in the event of a power failure to ensure operator safety.

DURABILITY

- Built-in heat protection will not allow lifting if internal temperatures exceed 285° F (+/-40°). Easily lower the load until the unit cools to extend the life of internal components.
- IP55 TEFC Motor with Class F insulation for working in harsh environments.
- Pendant Control is IP65 rated and is fully waterproof, insulated, and impact resistant for years of service.

VERSATILITY

- Lifting speeds from 3 feet per minute up to 33 feet per minute gives you the ability to be more efficient with every load.
- Patented gear limit switch provides precise control of the stopping point in both directions, prolonging the life of the hoist by avoiding damage to the unit.

MT SERIES MOTORIZED TROLLEYS

MT SERIES TWO SPEED MOTORIZED TROLLEYS

SAFETY

- Two speeds so you can move material quickly and safely, while also being able to place your load precisely without excessive bump firing
- Safe travel speeds from 20 feet per minute to 79 feet per minute allowing you to be more efficient with every load

DURABILITY

- Heavy-duty motor puts out up to 0.8HP, making it the strongest in its class
- Indoor and Outdoor use with IP-55 rating for trolley and IP-65 rating for the pendant

VERSATILITY

- The MT series trolley is available from 1/2 Ton to 5 Ton capacities
- Expanded flange capacity kits are available
- TAA approved

HOIST ACCESSORIES PENDANT CONTROLS

FEATURES

- NEMA 4X enclosures provide a higher degree of protection against corrosive elements when exposed to extreme and harsh environments
- 24-volt push button controller with cable strain relief system for electric hoist or trolley feature 4-pin quick connect plugs
- Water tight, dust tight and corrosion-resistant for NEMA 4X rated control pendant suitable for indoor and outdoor applications

JSH SERIES ELECTRIC HOISTS

JSH SERIES ELECTRIC HOISTS

SAFETY

- Slip clutch overload protection mechanism that prevents the hoist from lifting damaging loads above its rated capacity
- Magnetic disk brake increases safety by ensuring rapid stops and securing the load
- Upper and lower limiting switches increase safety by preventing the load chain from over traveling
- This product complies with ANSI/ASME B30.16 and HST-1 Standards

DURABILITY

- Built-in thermal overload protection system that keeps the hoist from overheating
- Maintenance-free gear train incorporates a sealed oil bath, eliminating maintenance
- Grade 80 black oxide coated load chain for durability
- Heat treated alloy steel geared drive train for long lasting durability

STANDARD EQUIPMENT

- Heavy-duty nylon chain bag with reinforcing metal brackets
- 24-volt 2-button push-button controller is 2' less than lift

VERSATILITY

- Die cast Aluminum housing keeps the hoist lightweight and easily portable
- Available in 1/8-Ton and 1/4-Ton capacities with standard lifts of 10, 15, and 20 feet (custom lifts available)
- Load tested to 125% of capacity with certificate

SSC SERIES ELECTRIC HOISTS

SSC SERIES ELECTRIC HOISTS

SAFETY

- All SSC Series electric hoists have a slip clutch style overload protection that prevents the hoist from lifting damaging loads above its rated capacity
- DC Electromagnetic brake design is an industry-proven safety feature that secures the load even if power is interrupted to the hoist
- Upper and lower limiting switches increase safety by preventing the load chain from over traveling
- Thermal Overload Protection protects the hoist from overheating in low voltage situations

DURABILITY

- Fully enclosed, all steel plate construction and powder coat finish keeps out dust and debris lengthening the life of the hoist
- Grade 80 black oxide coated load chain for added durability
- Sealed oil bath gear train reduces hoist maintenance

STANDARD EQUIPMENT

- Heavy-duty nylon chain bag with reinforcing metal brackets
- 24-volt 2-button push-button controller is 2' less than lift

STANDARDS

- This product complies with ANSI / ASME B30.16 and HST-1 Standards
- Load tested to 125% of capacity with certificate
- Push button control pendants are NEMA 4x compliant

JCP SERIES CABLE PULLERS

FEATURES

- General purpose cable puller designed to lift, lower, stretch or pull heavy loads
- Double solid cast aluminum ratchet wheel brake system hold load securely in any position
- Lightweight zinc plated steel construction to resist corrosion
- Concealed spring lever control prevents accidental release
- Drop forged hooks with safety latches standard
- Snatch block included with JCP-2 and JCP-4 models
- Aircraft quality cable
- 1-ton to 4-ton capacities

STANDARDS

- This product complies with ANSI / ASME B30.21 Standards
- Load tested to 125% of capacity with certificate

Stock# 180420 shown

STOCK NUMBER	180410	180420	180440
Model Number	JCP-1	JCP-2	JCP-4
Capacity (T)	1	2	4
Lever Ratio	18:1	36:1	36:1
Maximum Lift (ft.)	12	5	5
Lever Length (in.)	16-1/2	16-1/2	17-1/8
Minimum Distance Between Hooks (in.)	17	21	22
Wire Rope Diameter (in.)	3/16	3/16	1/4
Weight (lbs.)	7	9	13

JG SERIES GRIP PULLERS

FEATURES

- Industrial quality grip puller designed to lift, lower or pull heavy loads
- Easy to use in any direction, angle, length of pull or lift
- Multiple clutch brake system holds load in any position
- Safety shear pin in telescopic handle provides automatic overload protection
- Heavy-duty safety hooks with spring-loaded latches
- 3/4-ton to 3-ton pulling capacities
- Available with or without 66 ft. of wire rope

STANDARDS

- This product complies with ANSI / ASME B30.21 Standards

WHY CHOOSE JET LIFTING SYSTEMS

DEPENDABILITY

JET's limited lifetime warranty protects our products against manufacturing defects in workmanship and materials.

FUSED BRAKE REPLACEMENT

JET's revolutionary single-piece brake design fuses three components into the safest and most durable brake system in the market. JET is so confident in this design, we back it with a lifetime replacement warranty.

2-YEAR WARRANTY

JET Electric Hoists and Electric Hoist Accessories are covered by a 2-year warranty against any manufacturing defects in workmanship or materials.
